Encountering the Command of Heaven Level #2

Knowing God's still small voice is important for this day and age, the Spirit of God can light you on fire for God in times of trouble. I also like the idea of angels standing by me and lighting me on fire for Jesus as well.

Dr. Kevin Zadai said that the devil stationed giants and the enemy all over Canaan to keep the children of Israel out as a preemptive plan. Because the devil knew a little bit of what God promised the children of Israel through Abraham, Isaac, and Jacob.

This was an interesting topic to hear about because it makes me wonder how hard the enemy fights family bloodlines, and how he sets up bulwarks as a defense against families, in case members of a family come to Christ and repent—suddenly the saved family member has to fight their way through sieges of relatives, and community strongholds just to do God's will.

To use an example, My grandfather was a warlock and spent years abusing himself, his family, and the community in my area, so that when I came to Christ and repented of my sins, suddenly I had nasty battles with family, while dealing with different spheres of influence in my community that made me feel, like everyone seemed to want me to be poor, homeless, penniless, and pushed out of the town that I grew up in.

But God later spoke to me in a dream, telling me that when I focus on the sins of my forefathers, I go down, so what I needed to do is focus on Jesus, and automatically he will raise me up. But I need to keep my eyes on Jesus for it to happen.

I also liked when Dr. Kevin Zadai said that God took talents from others who were unfaithful with them, and gave them to him. For years I understood the laws of spiritual slavery, but when he said that, it added to my knowledge, understanding, and wisdom. So I instantly started to pray for God to take from the unfaithful and give it to me.

My favorite part was when Dr. Kevin Zadai said that you have to command devils to let go of your finances because there are devils that are stopping finances from coming to you. Therefore I command the devils to let go of my finances in Jesus' name!
